5th IEEE International Symposium on Smart Electronic Systems
(Formerly IEEE International Symposium on Nanoelectronic and Information Systems (iNIS))
(DEC 16-18, 2019 @ ROURKELA, INDIA)

CALL FOR PAPERS
http://www.ieee-ises.org

The primary objective of **IEEE-iSES (formerly IEEE-iNIS)** is to provide a platform for both hardware and software researchers to interact under one umbrella for further development of smart electronic systems. Efficient and secure data sensing, storage, and processing play pivotal roles in current information age. The state-of-the-art smart electronic systems cater to the needs of efficient sensing, storage, and computing. At the same time, efficient algorithms and software used for faster analysis and retrieval of desired information are becoming increasingly important. Big data which are large, complex data sets, are now a part of the Internet world. Storing and processing needs of the enormous amount of structured and unstructured data are getting increasingly challenging. At the same time, Internet of Things (IoT) and cyber-physical systems (CPS) have been evolving with simultaneous development of hardware and software and span across everyday consumer electronics. The performance and efficiency of the present as well as the future generations of computing and information processing systems are largely dependent upon advances in both hardware and software. IEEE-iSES is a sponsored meeting of Technical Committee on VLSI, IEEE-CS (http://www.ieee-tcvlsi.org/) that endorses a league of successful meetings including ASAP, ISVLSI, and ARITH, are now presented as "Sister Conferences".

CONTRIBUTIONS ARE SOUGHT IN THE FOLLOWING AREAS :

- Nanoelectronic VLSI and Sensor Systems (NVS)
- Energy-Efficient, Reliable VLSI Systems (ERS)
- Hardware/Software for Internet of Things and Consumer Electronics (IoT)
- Hardware for Secure Information Processing (SIP)
- Hardware/Software Solutions for Big Data (SBD)
- Cyber Physical Systems and Social Networks (CSN)

IEEE-iSES technical program will include both contributed papers and contributions from invited speakers. IEEE-iSES 2019 will have **keynote addresses, special sessions, expert panels and a student research forum.**

TCVLSI sponsored several student travel and best paper awards available.

PAPER SUBMISSION DEADLINES:
Submission : July 19, 2019
Acceptance : September 14, 2019
Final Version: October 9, 2019
IEEE-iSES proceedings will be published by IEEE-CS conference publications services (CPS). Authors should submit their original unpublished work of maximum 6 pages using IEEE-CS double-column conference format-template.
